EDUCATION

Princeton University, Princeton, NJ

Ph.D., Economics, co-chairs: Prof. Leah BOUSTAN & Prof. Ilyana KUZIEMKO 2023

M.A., Economics, fields: Labor Economics & Public Finance 2020

University of Pennsylvania, Wharton School, Philadelphia, PA

Visiting Ph.D. Student in Economics, IvyPlus Exchange Scholar Program 2022-2023

Sciences Po, Paris, France

M.A., Economics & Public Policy, *Summa Cum Laude* (ranked 1st) 2015

- Recipient of the Best Master Thesis in Economics award, thesis advised by Prof. Quoc-Anh Do

B.A., Social Sciences, concentration in Economics, *Cum Laude* (top 10% in 2011-2012) 2013

RELEVANT WORK EXPERIENCE

Prosperity Now, Applied Research, remote (based in Philadelphia, PA)

Research Scientist, supervised by Dr. Annette JACOBY & Christa MURILLO (2 years 4 months) 2023-2025

- Conducted research through data analysis and visualization, report writeup and automation, blog posts; mentored and managed junior coworkers; designed and developed a novel methodology to estimate local wealth disaggregated by race/ethnicity using SQL, Python, R and Stata; streamlined data workflows & pipelines; translated complex methods and findings to non-technical audiences, including CEO & funders.

Amazon.com, Alexa Economics & Measurement, remote (based in Philadelphia, PA)

Economist Intern, supervised by Dr. Mingyu CHEN (3 months) Summer 2022

- Extracted data using SQL; adjusted a Double Machine Learning model in Python; implemented matching methods combined with event studies in Stata to validate and expand the Alexa High-Value-Action model.

Princeton University, Department of Economics, Princeton, NJ

Teaching Assistant in Economics (4 semesters) 2020-2022

- Recipient of the Graduate Student Teaching Award for ECO313 Econometric Applications (Spring 2021).
- Taught online and in-person Econometric Applications and Introduction to Microeconomics; co-advised and mentored 18 undergraduate economics students on their junior theses, three of whom won a prize.

Research Assistant for Prof. Leah BOUSTAN (3 months) Summer 2019

- Geocoded historical church locations in ArcGIS; translated Python cleaning and analysis code into Stata.

University of Chicago, Booth School of Business, Chicago, IL

Research Professional, supervised by Prof. Rebecca DIZON-ROSS (2 years) 2016-2018

- Wrote Stata code for the behind-the-scenes running of a randomized field experiment; cleaned and analyzed data; conducted literature reviews; supported presentations and paper (re)submissions.

Sciences Po, Department of Economics, Paris, France

Research Assistant for Prof. Ruben DURANTE (1 year) Summer 2012 & 2015-2016

- Cleaned and analyzed data in Stata; performed literature reviews; helped with paper revisions.

OECD, Directorate for Education and Skills, Paris, France

Intern, supervised by Yuri BELFALI and Marco KOOLS (3 months) Summer 2014

- Drafted background papers and summary notes for the OECD education policy reviews.

EXPERTISE AREAS, PROGRAMMING SKILLS & LANGUAGES

Expertise areas: Causal inference, applied microeconomics (labor, public, education, health).

Programming/software: Stata, Python, R, SQL (Redshift, BigQuery), cloud environments (AWS, GCP), L^AT_EX, Microsoft Office, Git.

Languages: French (native), Chinese dialect of Wenzhou (native), English (fluent), Spanish (advanced), Mandarin Chinese (basics), Russian (beginner).
